Dear IPSS Members, colleagues and friends,

The International Pediatric Simulation Society (IPSS) and the IPSSW2016 Organizing Committee are pleased to announce the 8th International Pediatric Simulation Symposia and Workshops (IPSSW) in Glasgow, UK, from the 9-11 May 2016.

Building on a great meeting in Vancouver in 2015, IPSSW is looking forward to its first journey to the United Kingdom in the vibrant and wonderful city of Glasgow. The conference will be held at the Hilton Hotel in the city center and within easy reach of all the wonderful dining and cultural activities that Glasgow has to offer.

"IPSSW2016 – ‘innovation, engineering and exploration’ bridges the gap between the technology and science and the human side to pediatric simulation. Firstly, Innovation in terms of the growth of new ideas and concepts and how they can be applied to simulation will be explored. Secondly, Engineering as applied to new technologies and resources for pediatric simulation will be discussed. Finally, the Explorative journey to marry the technology and innovation for our simulation community will be discussed. We aim to bring these themes together in an exciting and stimulating program. In response to feedback from previous meetings, we are pleased to have included speakers from a range of industries with important in-sights applicable to our practice. The format of the academic program has been refined to facilitate smooth flow between sessions with adequate time devoted to those aspects that you’ve identified as key and will include workshops and breakout sessions.

IPSSW continues to represent the world’s largest gathering devoted exclusively to pediatric and perinatal simulation – popular for advancing its practice and network in a friendly and collegial atmosphere. A diverse group of individuals attend with a shared interest in improving pediatric healthcare through simulation.

We are very excited to be inviting you to Scotland, to IPSSW2016 in Glasgow and we very much hope to see you there!

Warm regards,

Richard Levin and Ralph MacKinnon
IPSSW 2016 Meeting Co-Chairs
The International Pediatric Simulation Society (IPSS) is dedicated entirely to pediatric, perinatal and associated health care providers and organizations utilizing simulation-based education to improve care and safety for children.

**IPSS MISSION STATEMENT**
To inspire, grow and lead the global Pediatric Simulation community.

**IPSS VISION STATEMENT**
Optimal healthcare for children and families through simulation.

**CORE GOALS**

- Reflect and empower the global pediatric and perinatal simulation community
- Develop and sustain a dynamic community of practice for pediatric and perinatal simulation-based innovations, education, research and advocacy
- Support effective, safe, and efficient individual, team and system improvements.
- Promote innovation for implementation and dissemination of pediatric simulation networks.
- With a unique focus on pediatric and perinatal healthcare, complement and enhance efforts of other organizations.
- Champion solutions for resource limited environments.

**Clockwise from Top:**
IPSS members and IPSSW2015 attendees at Networking Reception; IPSSW2015 Meeting Chair, Tobias Everett; IPSS Board of Directors Members; IPSS President, Dr. Stephanie Sudikoff and IPSS Secretary and Affiliations Committee Chair, Kim Stone signing affiliation with SimGHOSTS’ Lance Bailey and Ryan Eling.
ABOUT IPSSW2016

Join renowned and global experts in the world’s largest meeting dedicated exclusively to pediatric and perinatal simulation for three days of in-depth discussion on the role simulation plays to provide safe and effective care to sick children and infants, and the continued evolution and expansion of pediatric simulation across the globe.

IPSSW2016 will feature distinguished international speakers from a range of industries with important insights applicable to our practice.

Don’t miss an inspiring conference with unmatched networking and knowledge exchange in hands-on workshops, roundtable sessions, special interest groups and poster presentations!

WHO SHOULD ATTEND?

All pediatric subspecialties from novice to expert level: Physicians, Nursing, Allied Health Care, Simulation Educators and Researchers, Technicians and Administrators.

Register soon and take an active role in the advancement of pediatric simulation science for the purpose of improving education and patient outcomes in perinatal and pediatric medicine.
KEY DATES

Abstract submission deadline
2 November 2015

Early-Bird Deadline
14 February 2016

Pre-conference workshops
8 May 2016

Opening IPSSW 2016
9 May 2016

Please register:
ipssglobal.org/ipssw2016

PROGRAM AT A GLANCE

SUNDAY, MAY 8

Pre-Conference Workshops

CONFERENCE DAY SCHEDULE

Committee Meetings 7:30 - 8:30
Keynote Address 8:45 - 9:45
Coffee and Exhibitors 9:45 - 10:15
Round Tables and Workshops 10:15 - 11:45
Lunch 11:45 - 12:45
Round Tables 12:45 - 14:15
Poster Rounds 14:30 - 15:15
Coffee and Exhibitors 15:15 - 15:45
Plenary Lecture 15:45 - 16:45
IPSS General Assembly 17:00 - 18:00

George Square: The Heart of Glasgow
## PRE-CONFERENCE WORKSHOPS

**Sunday, May 8**

<table>
<thead>
<tr>
<th>Time</th>
<th>Workshop 1 - Developing IPE – how to introduce sim to new audiences</th>
<th>Workshop 2 - Hospital system improvement</th>
<th>Workshop 3 - Difficulties during Debriefing</th>
<th>Workshop 4 - Building a Program to Last: Complete SIMToolkits for Busy Hospital-Based Pediatric Simulator Programs</th>
</tr>
</thead>
<tbody>
<tr>
<td>08:00 - 12:00</td>
<td>Shannon Manzi</td>
<td>Jennifer Arnold, Vinay Nadkarni, Kimberly Stone, Jennifer Reid, Mary Patterson, Lennox Huang, David Kessler</td>
<td>Peter Dieckmann, Tin Kristensen</td>
<td></td>
</tr>
<tr>
<td>13:00 - 17:00</td>
<td>Workshop 5 - Simulated patients</td>
<td>Workshop 6 - Making Simulation Sustainable</td>
<td>Workshop 7 - Establishing Simulation Based Research</td>
<td></td>

## SPEAKER HIGHLIGHTS

Our speakers have been chosen to enlighten our audience on our theme of Innovation, engineering and exploration, from their own different but exciting viewpoints.

**Tore Laerdal**, Executive Director of the Laerdal Foundation, Norway

**Rhona Flin**, Professor of Applied Psychology and Director of the Industrial Psychology Research Centre at the University of Aberdeen, Scotland

**Bob Shepton**, Artic Explorer, Artic Advisor & Ice Pilot, Scotland

**Sanja Dogramadzi**, Associate Professor in Medical & Assistive Robotics, University of West of England, Bristol, UK

**Tim Antonius** of the Radboud University Medical Centre, researcher in neonatal physiology & ECMO, Netherlands.

**Sarah Baillie**, Professor of Teaching and Veterinary Programme Director, University of Bristol, UK

**Jennifer Arnold**, neonatologist and Medical Director of the Pediatric Simulation Center at Texas Children's Hospital, USA.
The Abstract Committee for IPSSW2016 invites the submission of original scholarly work in pediatric simulation research or education, technology development and evaluation. Completed projects, as well as work in progress will be considered. Abstracts previously presented at regional, national or international meetings will be considered. Simulation research using standardized patients/actors and virtual reality as well as mannequin simulators, task trainers and computer-based simulations are encouraged. All abstract submissions will undergo peer-review. The Abstract Committee will allocate accepted abstracts to one of four presentation formats, based on scientific merit and preference indicated by authors: (1) Oral presentation in themed sessions, (2) Poster sessions, (3) Themed roundtable/panel discussions (4) Workshops. In some instances, abstracts submitted as oral presentations or roundtable/panel discussions, and deemed to be of scientific merit, may be assigned as a poster presentation due to limited availability of time for oral presentations. Furthermore, abstracts submitted as workshops may be assigned as oral presentations, hence the abstract might need modification to fit within the format of the session.
